

SPC Knowledge Webinar: The Power of Robotics to Benefit Mankind - During and After Covid19 (11 June 2020, Thursday, 11am - 12pm)

Brought to you by

With COVID-19 ravaging countries around the world, robots have taken a prominent role in the fight against the virus. This was not the case years ago when the robot industry was in its infancy.

Join our SPC Knowledge Webinar, brought to you by SoftBank Robotics Singapore and their partners, as they discuss the role of robots in a world facing a pandemic.

Date: 11 June 2020, Thursday

Time: 11am to 12pm

Format: Presentation, Panel Discussion and Q&A

<https://pressclub.org.sg>

Topics covered include

Current robotics solutions in different industries such as healthcare, hospitality, retail, F&B, transport, cleaning, property etc. The trends across different countries in the Asia Pacific.

How COVID-19 accelerated the adoption of Robots with a sharing of some use cases such as facilities and cleaning management. What are the adoption process and the benefits?

The Robotics Industry in the 22nd Century. What is the impact of COVID-19 in speeding up the adoption of robotics solutions? What are the up and coming developments to watch due to government guidelines and policies?

Presentation and panel of speakers:

- Mr. Eric Lim, Singapore Sales Director, SoftBank Robotics Singapore
- Mr. Ben Lim, Senior Director of Jones Lang Laselle
- Dr Frank Guan Yunqing, Assistant Professor of the Institute of Technology

About the Speakers

Eric LIM
Singapore Sales Director

SoftBank Robotics Singapore

Eric Lim has over 14 years of experience in commercial development within the technology industry and currently heads up commercial development for SoftBank Robotics Singapore. Prior to joining SoftBank Robotics, Eric has worked with various corporations within artificial intelligence, B2B enterprise solutions as well as co-founded 2 start-ups. He is passionate about technology, its transformational potential as well as enjoys cooking as a hobby. Eric holds a Master of Business Administration from National University of Singapore.

BEN LIM
Senior Director

Jones Lang LaSalle

An experienced B2B marketer with a passion for real estate, Ben has worked across diverse sales and marketing disciplines in the real estate and property consultancy sectors over the last 25 years of his career. He is now a Senior Director with Jones Lang LaSalle and has developed PropTech strategies which have influenced the integrated workplace and facilities management for many leading multinational corporates of today. In the early stages of his career, Ben has developed go-to-market strategies for top technology firms including MRI and Buildfolio which accelerated their expansion across the Asia Pacific region. Today, with an even greater focus of technological solutions in light of COVID-19, Ben will be sharing his insights on leveraging on PropTech as we adapt to a new normalcy.

Dr Frank Guan Yunqing
Assistant Professor

Singapore Institute of Technology

Dr Frank Guan Yunqing currently is an Assistant Professor at Singapore Institute of Technology. His research interests include Artificial Intelligence (AI), Virtual Reality (VR) and Augmented Reality (AR). Dr Guan had been leading and conducting research in three large research centres with collaborations from both academics and industry. He has published dozens of peer-reviewed papers in top-tier conferences and journals and has served in the committee for a number of international conferences. He currently sits on the editorial board for two international high-impact journals and serves on the advisory board for a local tech startup.
